Who We Are:

- **Mars was founded in 1924** to serve the iron mining, wood and paper industries in Northern Minnesota. Today, we do business in five states and offer an expanded and unique blend of products and services unlike any other local independent industrial distributor in our market.
- **In 2013**, Mars acquired the Walter Hammond Co. of Minneapolis. Hammond, founded in 1945, is a full service distributor of cutting tools and related tooling and is now a division of Mars.
- **Our Value-Added Services include:** safety audits and training; air and electric power tool repair; hydraulic track tool repair; band saw blade welding; air and hydraulic hose coupling.
- **Our “Supply Management Solutions” group** assists customers in developing supply chain programs that reduce costs and improve service levels in their facilities. Each one is unique, built around the customer’s priorities and goals and is designed to produce documented costs savings.
- **Our websites** contain thousands of our most popular items at the click of your fingertips. . . .priced right and in stock for immediate delivery. Be sure to visit MarsSupply.com and WalterHammond.com
- **Speed...** whether it’s a boring bar for a job shop, first aid kits for a construction crew, a hose reel for a maintenance department, sanding belts for a foundry or a height gage for a metrology department, we know our customers need their supplies on time. Our joint Mars/Hammond customer service teams are geared to turn your order around quickly. We also offer same day delivery for those rush orders.
- **Conveyor Belt Service, Inc.** is a wholly-owned subsidiary of Mars Supply. Founded in 1953, CBS serves the mining industry and Great Lakes carriers with the area’s most experienced belt technicians. Some of the services provided include on-site conveyor belt installation and repair, belt inspections, belt trouble-shooting and rubber fabrication. CBSRubber.com

Honeywell Eyelation®

For Your Prescription Eyewear Needs

Eyelation's revolutionary, web-based software and patent-pending process re-invents the safety eyewear industry and changes the way companies manage their eye safety programs.

Though Eyelation's 24/7 kiosks, every employee, on every shift, at every location can easily order their prescription safety glasses on-site at their work location. The simple 3-step system allows employees to capture their image, scan their prescription and order glasses all within a matter of minutes. As part of this easy system, state-of-the-art "virtual try-on" technology allows employees to view a variety of safety frames on their own image as well as get exact measurements taken to ensure a proper fit.

With Eyelation, companies can offer quality prescription eyewear with the best fit and service to all of their employees. Eyelation provides an easy-to-manage program and eliminates the need for complex forms, panel doctors and special visits.
